1. Objective

The objective of this policy is to define the processes and methods for maintaining the Security at the CMR Plants

2. Scope & Applicability

The policy is applicable to all workers and staff whether permanent or otherwise, who are working for CMR Group

3. Frisking Process**3.1 Workers**

- 3.1.1 All workers are allowed to carry plastic lunch boxes up to the workstation
- 3.1.2 No metal lunch boxes/ metallic items are allowed to be carried inside the plant; in case such items are found while leaving, they will be confiscated and treated as company property
- 3.1.3 All personal belongings are to be kept in company provided Lockers only
- 3.1.4 During the shift **in-time**, no checking/ frisking of workers will be done by security unless otherwise, due to suspicion
- 3.1.5 During the shift **out-time**, proper frisking is to be done after queue formation
 - 3.1.5.1 Person frisking by hand metal detector (For lady worker, Lady Guard will do the frisking)
- 3.1.6 In case anything is detected (wrong practice / theft etc.), guard will inform Supervisor/ SO
- 3.1.7 Supervisor/ SO will inform CSO/ HR Person/ Plant Head and suitable action will be taken as per Clause 4

3.2 Staff

- 3.2.1 For staff (any level), frisking is to be done randomly by the security staff
- 3.2.2 Car parked inside premises are also to be subjected to random thorough checks

4. Action in case of Theft

PROCESS AND ACTIONS IN SITUATION OF THEFT	
Detail of Theft	Action by Security
Material theft by Staff/ Casual Workers/ Vendors/ Suppliers/ Transporters	a) Duty Security Supervisor will take written statement from culprit with acceptance of theft. Information to be provided to SO/ CSO/ Plant Head b) Take material cost valuation with the help of concerned department c) The concerned person will be terminated after recovery d) Recovery from concerned person will be done as maximum as possible e) Recovery from contractor of concerned person will also be equal to value of stolen material

5. Visitor Management

- 5.1 Any visitor will get his tools/ materials/ laptop registered at the time of entry at the gate
- 5.2 While leaving the premises, the same is to be verified by the person frisking (if felt necessary)
- 5.3 Visitor will be given access to premises only after written/ verbal confirmation from visited staff

- 5.4 Visitor Slips to be maintained for a particular audit period till the closure of raised audit queries for the said audit period. For example, for audit going on 31st August 2019 for the period January to June 2019, we should keep visitor slips for the period of January to June 2019 till closure of Audit of the said period.

6. Weighing

- 6.1 Unauthorized access is restricted in the weighing room
- 6.2 Security Person will ensure Physical verification of vehicle, as well as, documents such as Pollution Certificate/ RC/ Vehicle Insurance/ Vehicle Fitness and Driving License of Driver
- 6.2.1 Display of weighing machine is to be kept under lock & key; for digital weighing bridge it is not mandatory.
- 6.2.2 Yellow mark shall be made on the weighing bridge for the correct positioning of the truck
- 6.2.3 Weighing slip should be signed by Security Guard and Driver
- 6.3 In case of weight variation, the vehicle will be cross checked by third party (external weigh bridge)
- 6.4 Acceptable limit of variation in weight is subject to maximum equivalent to least count of the weigh bridge
- 6.5 Major variation in weight is to be treated as per the separate policy on weight variation according to type of material (Fuel/ Raw Material/ Store items etc.)

7. Other Restrictions & Corresponding Actions

S.N.	Restrictions	Action against adherence	Responsibility
7.1	Usage of mobile is restricted for workers at shop-floor area	If somebody is caught using the mobile phone, then phone will be confiscated for 3 days	Plant HR & Security Officer
7.2	Usage of tobacco (Gutka/ Cigarette/ Khaini) is restricted inside the company premises (Smoking to be allowed only in designated smoking areas)	If caught using these substances, suspend the individual for 3 days the first time & terminate in the second attempt	Plant HR & Security Officer
7.3	Alcohol consumption is restricted in the company premises	If caught in drunk condition, the individual will be terminated immediately	Plant HR & Security Officer
7.4	No person having coin/ paisa will be allowed inside the plant	If caught during out-time checking, the coin/ paisa has to be submitted at the box kept at security gate. Later, it may be donated to a charitable trust	Plant HR & Security Officer
